

EXPLORING CAYENNE A HALF-DAY GUIDED TOUR OF THE CITY (on foot or taking a tourist train)

Guyane Evasion

TRIP SCHEDULE

Guided tour on foot

8am – Our meeting point will be right outside the *Bar des Palmistes*. Then off to a 3-hour walking tour of Cayenne to explore its sights, history and architecture.

You'll start by climbing up the 115ft-high Cépénou hill. Its summit affords a panoramic view of the island of Cayenne and your guide will deliver full information on the origins and development of the city.

Later walks will take you through numerous key spots of historical, cultural or natural interest, incl. civil, religious and military monuments but also coastline areas harboring special fauna and flora.

Your trip ends around noon at Cayenne market.

Tourist train tour

The little Koati tourist train on wheels is named after an emblematic animal of Guiana: the coati raccoon. This small mammal belongs to the *Procyonidae* family whose members are to be found across Central and South America.

Taking the Koati train will allow you to discover the city of Cayenne along a pleasant, leisurely trip. Your guide will provide full historical and cultural information for each successive site you will encounter as the train rolls on through the streets.
